20 PROPOSALS FOR PALMA

MORE CIVIC AXIS

We will promote the creation of new civic axis, such as an axis between Nuredduna street till Rafal (Pere Garau) and we will extend the one from Blanquerna till Secar de la Real.

HIGH CAPACITY TRANSPORT

Tram or Trambus from the city centre to the airport and to s'Arenal, a 10 km-journey on a segregated lane with an approximate frequency of 6-8 minutes.

NEW PARK-AND-RIDES TO DETER FROM ENTERING THE CITY

We will build parking lots on the outskirts that will be connected with shuttle buses to the city centre. This will reduce the pressure on the entrance to the city, hence avoiding traffic congestion.

A CITY THAT DRIVES AT 30 KM PER HOUR

We will work for living streets and to reduce noise, CO2 emissions and speed. Turning Palma into a 30 km/h city will contribute to mitigate climate change, as well as to reduce traffic jams.

INCREASED RECYCLING AND PRODUCT REUSE

We will foster packaging return programmes through incentives to companies and consumers. We will incentivize an increase of the reuse of products from citizens and companies.

WE'LL PLANT THE FIRST URBAN FOREST

We will work so as to turn free spaces into green infrastructure. We will adapt the city to the effects of climate change. We will plant 650 trees in the former Greyhound and Velodrome and 2150 at the seafront, as well as a collective plantation of trees.

Palma.**

A SPACE FOR CREATION: CAN RIBES FACTORY AND FORMER PRISON

We'll promote the Centre for Creation, Training and Investigation of the Arts of Circus at Can Ribes. The new Centre for Contemporary Creation of the former prison of Palma will provide spaces for rehearsing and playing for musicians and bands.

CREATION OF A SERVICE OF SOCIAL ATTENTION FOR EMERGENCIES 24/7

A citizen emergency office to deal with social urgency situations; energy poverty; malnutrition; aggressions or situations derived of catastrophes (fires, damages to houses, etc.) and accidents, etc.

A STIMULUS TO SMALL SHOPS

We will structure shops from different streets in axis that connect neighbourhoods, giving value to small merchants.

FINALIZING THE DECOMMISSIONING OF THE SETTLEMENT OF SON RIERA

We must keep on reallocating families from the former settlement so as to ensure a decent life to all the citizens. We must ensure equal opportunities to all and the social inclusion of children and youth. We can't afford having areas of exclusion and marginality in our city.

TRANSFORMING THE SEAFRONT

We will promote the seafront (from S'Arenal to Cala Major) as an engine of innovation and economic diversification of Palma against current dependence on tourism. At the same time, we will make sure that the economy is inclusive in the neighbourhoods where it flourishes, so as it increases the value of these.

FROM 6 TO 3 CRUISERS A DAY

We will push to set a maximum of three cruisers simultaneously in our city, which will mean having maximum of six moorings at the special plan of the port.

TRADITIONAL AREAS FREE FROM TOURIST RENTALS

Traditional areas free from tourist rentals. We will reduce the difficulties to have access to housing and we will ensure the good coexistence in neighbourhoods. We will limit the rental in non-detached single-family houses in el Molinar and Son Espanyolet.

LIMITING THE COST OF RENTING IN THE CITY CENTRE

After modifying the Law on Urban Rentals, we will set a maximum price of reference, we will stimulate and incentivize the regaining of the city centre with subsidies for youth to rent.

PROMOTING CITIZEN PARTICIPATION

We will facilitate the organization of festivals by entities and groups of citizens by giving the tools they need. We will facilitate the administrative procedures and permits to citizens' initiatives.

MODERNIZING THE FUNCTIONING OF THE CITY HALL

We will promote a Strategic Plan for the City, by which we will create the city management and set the adequate rules to modernize and make our city hall more agile and decentralized, so as to ensure a good work on all cross-cutting issues.

ZERO ANIMAL ABANDONMENT

While promoting zero abandonment we will keep preserving abandoned animals. However, it is fundamental to keep fighting to ensure that no cats, dogs or any other pets are abandoned in Palma.

PRODUCING OUR OWN ELECTRICITY AND PROMOTING RENEWABLES

We will work to ensure that Palma is the owner of its own electrical grid. We will promote the creation of a green energy provider that is municipal. We will promote the installation of solar panels and simplify the procedures for those buildings that want to install photovoltaic panels.

A CITY FREE FROM SEXUAL AGGRESIONS

We will elaborate a city plan that ensures that the city is free from sexist aggressions, particularly in the context of night leisure and in tourism, based on the European project Stop SV.

PALMA LAB

We will develop a citizen laboratory at the galleries of the Plaza Major. The objective of this lab will be, on the one side, to work on making Palma a more active city, and, on the other hand, on promoting projects related to the knowledge and sharing economy at the local level.
